

Warum soll ich Deutsch Studieren?

There are many reasons for a person to choose to study German. It may be because German is the most spoken first language in Europe (English is the most spoken second language) or it may be because Germany has the third strongest economy in the world (after the US and Japan). These facts may lead to practical reasons, like trying to find a job with one of the many German companies doing business in America. Yet, there may also be personal reasons, like trying to get in touch with one's family heritage.

If you had to defend your decision to study German, what would you say? What are some reasons to learn or benefits of learning German?
